Andrii Kondakov
Front-end Developer (React)

⌖ Remote | @ kondakov.dev@gmail.com | ⚲ Portfolio | in LinkedIn | ✈ devkondakov

Summary

I am a Front-end Web Developer with over 6 years of professional experience creating interactive and responsive web applications using React, Next.js, and TypeScript.

I have a strong passion for clean, efficient code and intuitive user interfaces. I am a quick learner who is always eager to expand my knowledge and skill set. As a team player, I thrive in dynamic environments and enjoy working with others to build exceptional digital experiences.

Skills

JavaScript / Typescript	HTML5 / CSS3
React.js / Next.js	SCSS/SASS, CSS Modules
Redux (Thunk, Toolkit)	Tailwind CSS
REST API / GraphQL	Storybook
React hook form / Formik	Material-UI / Bootstrap
Form Validation (Yup, Zod)	Figma / Zeplin / Photoshop
Firebase	Git
Cypress	Scrum
Jest / Enzyme / React testing library	Jira
SEO practices	English (B2)

Experience

The Neat Company   April 2019 - December 2024
Front-end Developer   United States, PA, Philadelphia
⚲ https://www.neat.com/

I worked on developing a business financial management solution, including digital business accounts, payment system integrations and internal dashboards.

Neat is a fintech platform that helps entrepreneurs keep bookkeeping, open online accounts, expense tracking, receipt organization and automate financial workflows. I was part of the development of a stable, scalable infrastructure and the implementation of features with a focus on security and user experience.

Giraffe Software   March 2018 - April 2019
Front-end Engineer   Remote
⚲ https://giraffesoftware.com/

Contributed to diverse outstaff projects, working with cross-functional teams to drive success and achieve project goals.

Projects

The Neat Company
Front-end Developer
⚲ https://www.neat.com/

- Participated in the implementation of features of varying complexity across multiple applications, utilizing modern front-end technologies.
- Ensure application stability and performance by creating and maintaining unit tests with Jest, as well as end-to-end tests using Cypress.
- Actively collaborated with cross-functional teams, including designers, QA engineers, and product managers, through regular design discussions, sprint planning, and code reviews to maintain consistency and adhere to best practices.
- I have worked on integration processes with financial platforms and services.
- Built data visualization components using charts to improve user insight and business decisions.

Technologies used:

React, Redux, Next.js, JS/TS, Storybook, Formik, Yup, Lodash, Jest, Cypress, BEM, SCSS, Modules-components, Blueprint JS, REST, GraphQL, Scrum, Git, Zeplin, Tailwind CSS, React Hook Form, React Native

Carbonara App
⚲ https://www.carbonaraapp.com/

Carbonara App, a free waitlist and reservation system designed for restaurants.

- Spearheaded the front-end development for CarbonaraApp, taking full ownership of the user interface and experience for this web-based product.
- Significantly enhanced application performance and responsiveness by independently identifying and refactoring inefficient legacy code.
- Optimized critical sections of the application, including the overhaul of large-scale forms, to resolve noticeable performance bottlenecks (lags) and improve overall user satisfaction.
- Developed and maintained the product with a "mobile-first" approach, ensuring a seamless and intuitive experience across various devices and screen sizes.

Technologies used:

React.js, Redux, Redux-form, JS, Formik, Yup, Responsive Web Design, Mobile first

Highre
Front-end Developer
⚲ https://highreevents.webflow.io/

I worked on a virtual career fair. Highre is supercharging recruiting with dynamic virtual career fairs. We built the new generation virtual career fair platform that supports bringing talents and employers together, no matter where they are.

- As an early developer on the team, I was involved in building the product from scratch, contributing to feature development, component creation, and ensuring cross-device compatibility.

Technologies used:

React, TypeScript, Material-UI, Storybook, Lodash.js, Responsive Web Design

Education

ISMA (Informacijas Sistemu Menedžmenta Augstskola)   2022 - 2024
Computer systems and qualification of systems analyst   Master's degree
⚲ https://isma.lv/en/

Cherkasy State Technological University   2016 - 2020
Applied mechanics (Engineering)   Ph.D.
⚲ https://chdtu.edu.ua/

Cherkasy State Technological University   2013-2016
Computer Technologies and Mechanical Engineering   Master's degree
⚲ https://chdtu.edu.ua/

Cherkasy Polytechnical College   2009 - 2013
Maintenance of machines with software control   Junior Specialist
⚲ https://polytechnic.ck.ua/

Operation and maintenance of CNC (Computer Numerical Control) machinery

Volunteering

Royal Rangers   Feb 2017 - Apr 2017
JS Developer

- Collaborated with a team during a JS course at Codaline to build a non-profit organization's website.
- Gained practical experience with HTML, CSS, and vanilla JavaScript in a real-world project.

Certifications

JavaScript   October 2018 - April 2019
Geekhub
